### **Kennedy Safe Routes to School Sidewalk Project**

On Tuesday, June 30, 2015, A-Tech Paving, a contractor working with the City, will begin sidewalk work on the north side of Beaumont Street from 12<sup>th</sup> Avenue Southeast to Sunrise Street and on both sides of Beaumont Drive from Biloxi Drive to Sinclair Drive.

This project is a federal Safe Routes to School project near Kennedy Elementary School that will improve sidewalks and ramps up to American Disabilities Act (A.D.A.) compliance. The City of Norman is the sponsor of this project, and A-Tech Paving of Edmond, OK is the contractor. The cost of the project is \$214,602.90, of which \$175,000 is funded from the Safe Routes to School grant and \$39,602.90 by the City.

The streets will remain open during the construction, although certain lane segments will be closed as needed to do the work. Flaggers will direct traffic through the work zone, and local access will be maintained at all times by the contractor. All work should be completed by August 20, 2015.

City contacts for this project are Michael Rayburn, City of Norman Traffic Engineer (217-7713; [mike.rayburn@normanok.gov](mailto:mike.rayburn@normanok.gov)), and Mark Goodman, City of Norman Construction Inspector (410-3013; [mark.goodman@normanok.gov](mailto:mark.goodman@normanok.gov)).
